Kototuki – support for integration

The service is intended for refugees and others who need initial support for integration.

You can become a client if no more than 2–3 years have passed since your first residence permit or registration of your municipality of residence, and you live in Raisio, Naantali, Rusko, Masku, or Mynämäki.

You can call to book an appointment. Together we will assess your and your family's need for support and, if necessary, draw up an integration plan.

We provide support, for example, in matters of family and children, as well as issues related to social security, work, studies, and leisure activities.

We also direct you to other services as well as to hobbies and activities in your municipality of residence.

Our office is located at Martinkatu 8, Raisio. We can also make house calls or meet in other municipalities in our area.
